

Website accessibility

At AXA, we want to make sure the experience on our website is a positive experience for everyone. To make your experience on our site better, you're able to:

- Zoom in on web pages by pressing the control (on Windows) or command (on Mac) key with the +
- Use your preferred screen reader to navigate pages
- Have images on the page described to you through our alt text

Are we missing something? If we can improve your experience of our website, please let us know.

Browser settings, updates and links

We try to use clear fonts on our website, but we understand this still might not meet everyone's needs. If you would like to make the text larger you can do this by changing the settings in your browser.
